OBJECTIVE & LEARNING INTENTIONS

We have an understanding of pressing and how to press. What are the triggers of when we step and when we hold off from the press.

- When to step to your player and when to give him space
- Holding a line so they cannot play in between
- Not allowing them to turn when they receive with back to you
- Defensive tackles and applying pressure

TACTICAL PRINCIPLES / SKILL SETS

Team Tactical Principles:

Sprinting when your marker has the ball

No space or time on the ball when pressing

Individual Tactical Principles:

See his forward options who he can pass to

Cut off his 2nd and 3rd option

Skill Sets:

Knowing when to step

Not allowing the defender to turn

NOTES:

ORGANIZATION

30m x 20m

Blue starts with the ball and it's trying to find there pivot 8 and find either 6 or 7.

Red is trying to stop forward play each time they win the ball they get a point

Blue each time they successfully find the 6 or 7 they receive a point.

Ball is played with their hands and not their feet

Ball starts with the blue team and will pass between the back four until space open up.

Red must press the blue and not let them find the forward pass

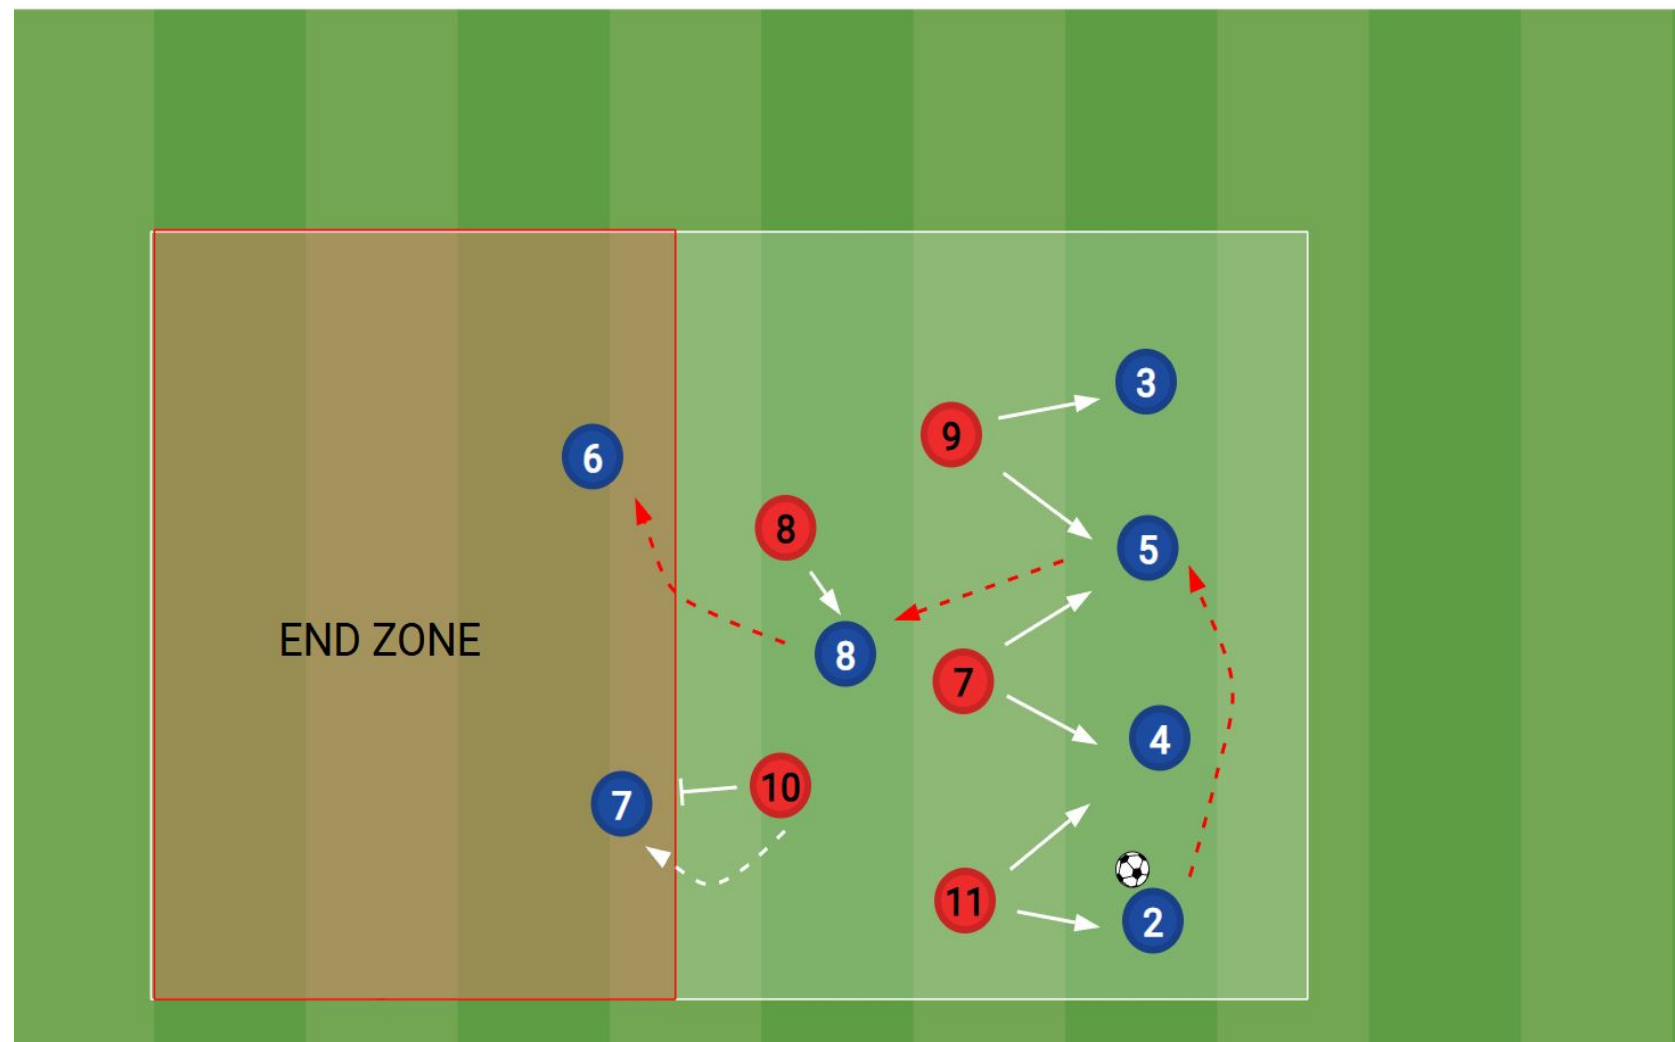

TACTICAL PRINCIPLES

One steps one drops

Holding a tight line

When one player applies pressure the other drops into the space of the gap that is being made

The 8 and 10 have to decide who will apply pressure to 8 the pivot and who will mark the 6 or the 7 or can they have the 7 drop and provide the support and have the 8 and 10 defend the 6 if the 10 is marking the 7
