

System

AO: 1-3-4-3
DO: 1-4-3-3

Strategy

Pressing moments
Times to step
Player cues
Shifting as a team
Can we force a turnover

Tactics

Pressing as a team
Closing gaps
Deny forward play
Shadowing player
Blocking passing lanes

Skill Set

Position between players
Level of communication
Aware of outlet options
Speed of press

Defensive Organization

ZONES 1-2 Channels 3 - 2

**PLANNING
GUIDE**

PLAYERS

14 Players

Will be highly competitive group with some intermediate players

Cognitive maturity of player will be moderate to intermediate

Primary Players: #7 #9 #11

Secondary Players: #6 #8 #10

OBJECTIVE & LEARNING INTENTIONS

- What a successful press looks like
- When do we step and why do we step
- Moments when we won't be successful, who didn't do their part

Importance of shifting at the right time and consequence we shift too late or too early

Being able to read the play and the likely position they are looking to play

RESOURCES

90 minutes (Half-Field)

Assistant Coach to Manage the Attacking Side

2 Large Nets

2 Small Nets

9 Balls

Yellow & Orange Bibs

Coaching Board

TACTICAL PRINCIPLES / SKILL SETS

Man marking

Space Marking

Objective in the press

Cutting off forward passes

Forcing a turnover

Stopping forward movement

NOTES: A successful press can be many things a turnover, the ball going out, start back with the keeper

ORGANIZATION

40m x 20m Grid

3v3

Format Handball

Activity starts at either end grid the objective is to play the ball and break the line of the defending team. If the break the line and find there midfield line then can then attack the goal and only finish with a header passed by a teammate.

Possession then starts with the conceding team`

TACTICAL PRINCIPLES

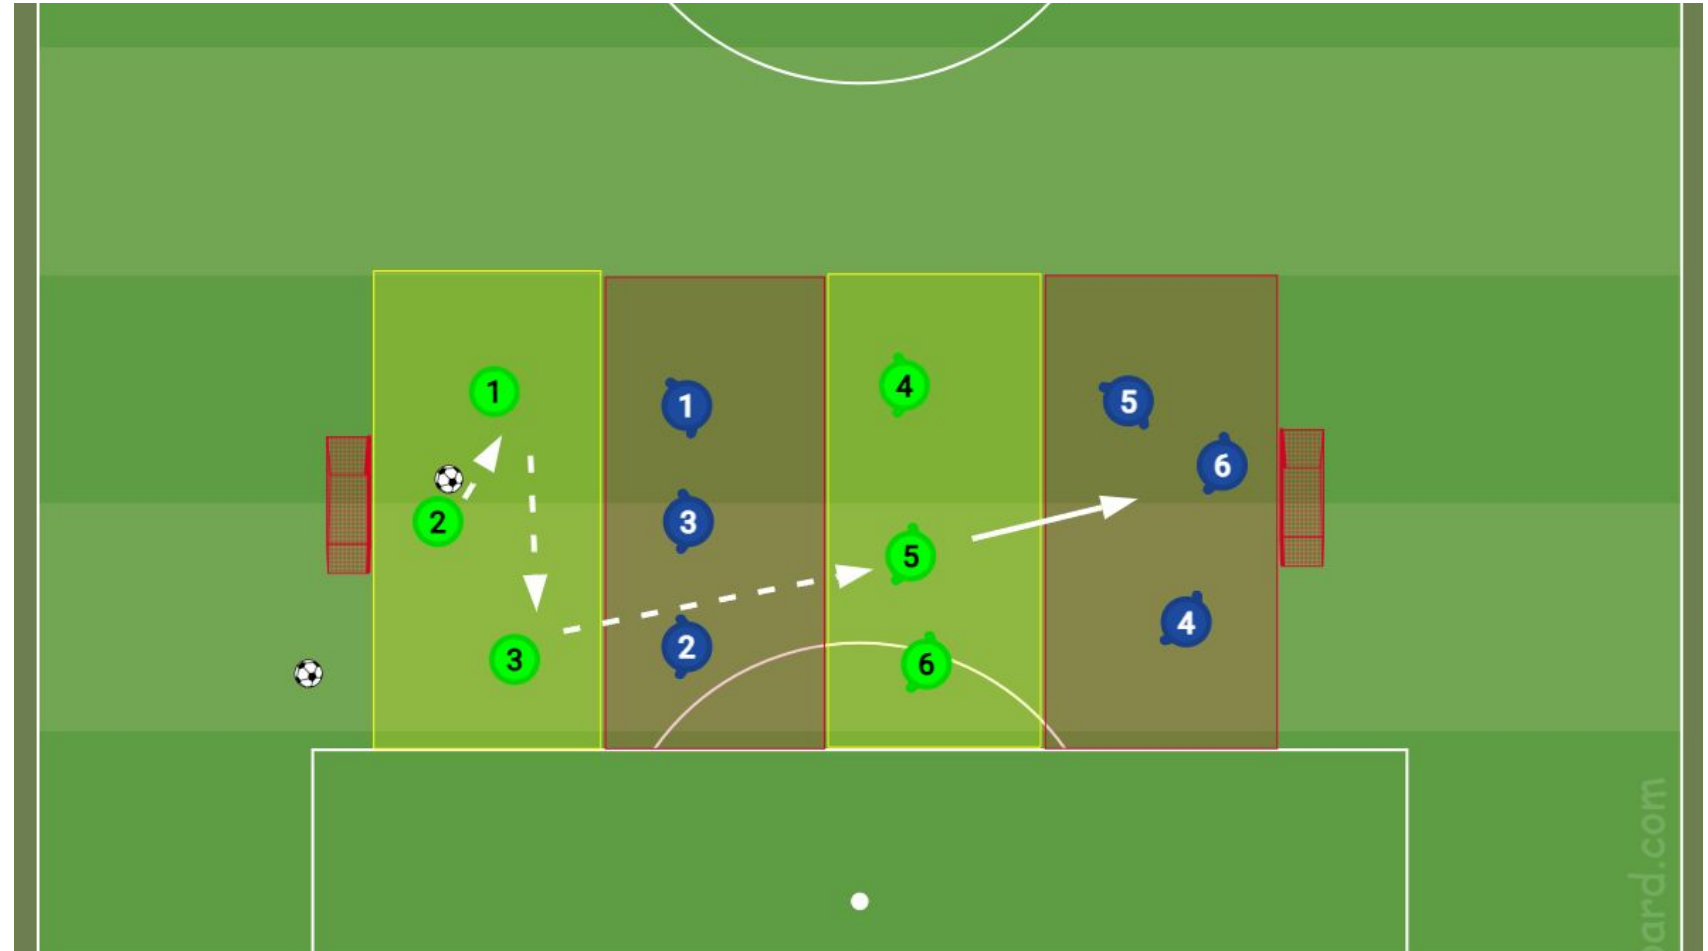

Shuffle the ball until a gap opens up

Encourage off the ball movement

Bode shape can we see

Receiver is the defender blocking my receiving lane

Weight of the pass

COACHING DETAILS

WHEN: when there is space provide i.e gap, wide channel
WHERE: Can i position myself visible behind the defenders so I can receive the ball

HOW-WHEN: the players will either switch slow or leaves space unmarked, we should look to attack those spaces.

WHY-HOW: If we make our movement predictable then the pass will get intercepted. Therefore we must make movement off the ball so we are hard difficult to mark.

ORGANIZATION

35m x 35m

4v4v4

We have 3 teams red green and black

Red is looking to complete 4 passes and trying to break the central line and find the black team on the other side of the grid

If the defending team press and score they gain a point if they win the ball they play it across and then the other team is the defending team and they go on the outside of the grid

TACTICAL PRINCIPLES

Shuffle the ball until a gap opens up

Encourage off the ball movement

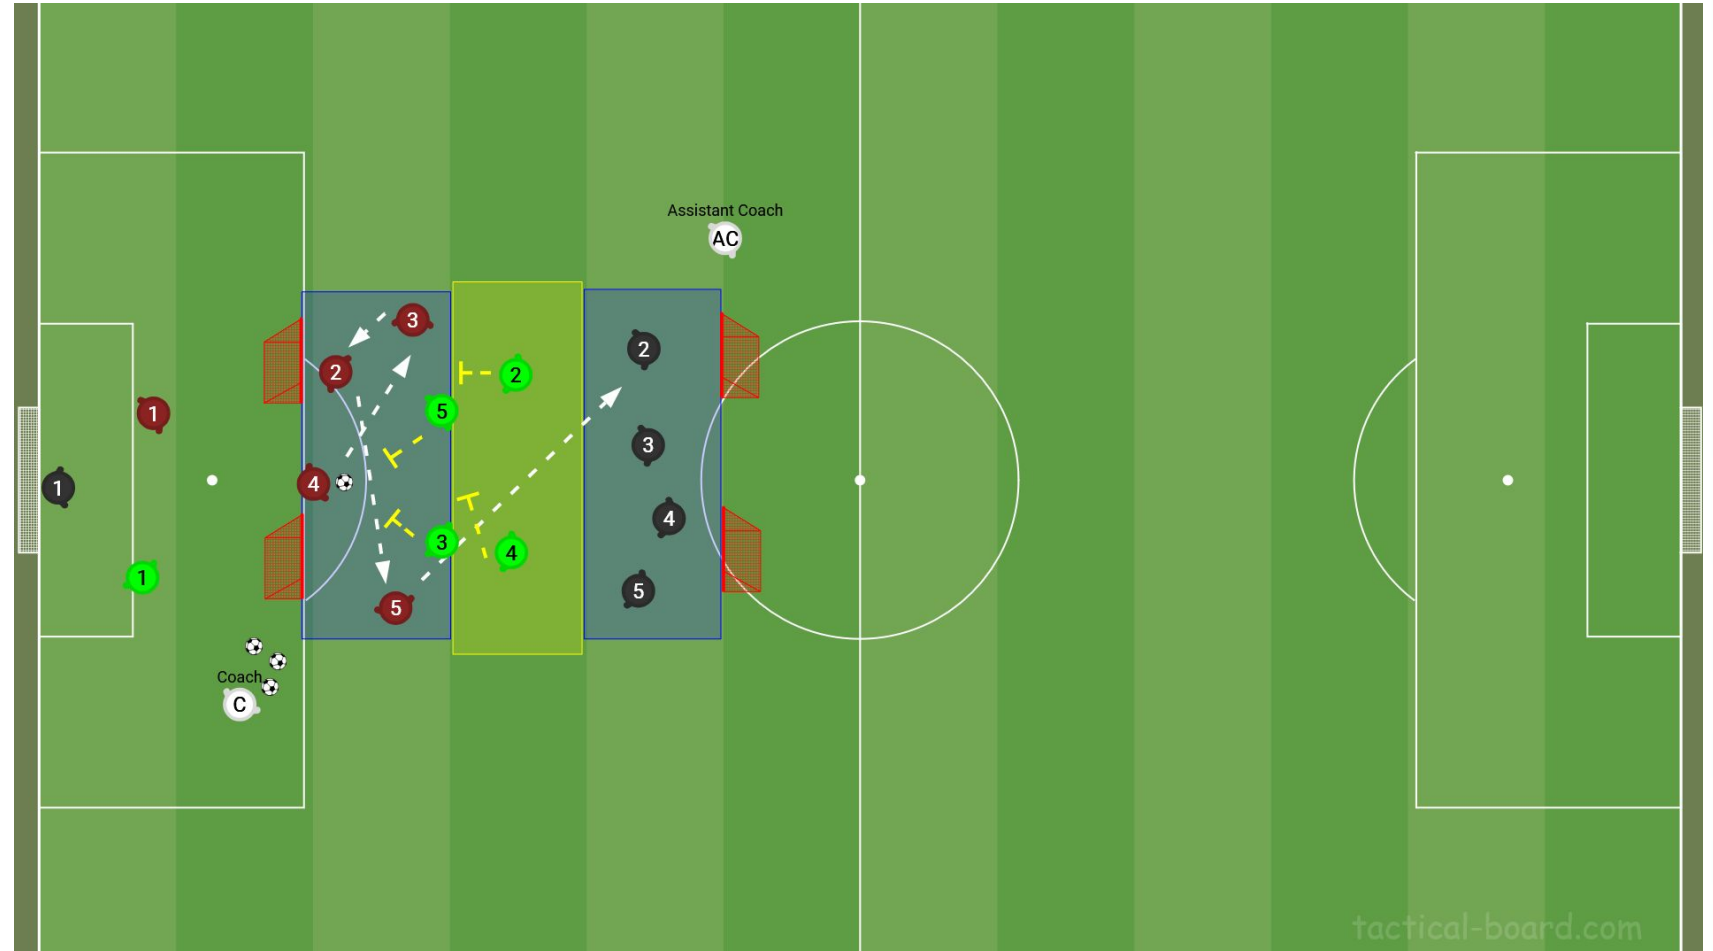

Bode shape can we see

Receiver is the defender blocking my receiving lane

Weight of the pass

Quick transitions

When we lose the ball can we win it back

COACHING DETAILS

WHEN: when there is space provide i.e gap, wide channel
WHERE: Can i position myself visible behind the defenders so I can receive the ball

HOW-WHEN: the players will either switch slow or leaves space unmarked, we should look to attack those spaces.

WHY-HOW: If we make our movement predictable then the pass will get intercepted. Therefore we must make movement off the ball so we are hard difficult to mark.

ORGANIZATION

65m - 30 m Grid Size

The ball starts from the keeper black is looking to beat the press green is looking to prevent the black team from scoring on the small goals

Each point for black is to replicate the black team beating our press.

Green Scores a point for green Black Scores a point for black

Defensive Organization
1-2-3

Attacking Organization
1-4-3

TACTICAL PRINCIPLES

Shuffle the ball until a gap opens up

Encourage off the ball movement
