

System

Black: 1-4-1-3-2

Blue: 1-4-3-3

Strategy

Build through the central channel using the keeper when available.
Using the wide channels to provide width

Tactics

Rotate the ball between the back 4

Look for gaps

Play quick when advancing

Skill Set

Finding gaps

Moments to progress

Moments to reset play

Attacking Organization

ZONES 1-2 Channels 3-1

PLANNING
GUIDE

PLAYERS

18 players

Ability competitive

Basic footballing ability mixed level of players

Primary Players # 4 # 5 #2 #3

Secondary Players: #6 #10 #8

OBJECTIVE & LEARNING INTENTIONS

When the opponent is not allowing us to play wide can we build centrally

- Understand when to progress centrally
- Using the back 4 to rotate the ball and look for gaps
- Occupying different channels on the pitch
- Knowing when to progress.

RESOURCES

Full sized field 11v11 goals

Portable 11v11 goals

Two color set of bibs

Cones

Balls

Coaching board

TACTICAL PRINCIPLES / SKILL SETS

Team Tactics:

Overlapping runs

Breaking lines

Movement off the ball

Individual tactics:

Patience

Scanning for space

Space between the defenders

Skill Set:

Passing the ball with space between defenders

Turning while under pressure

Bouncing the ball under pressure

NOTES:

ORGANIZATION

30 x 20

Handball moving the ball trying to progress out for the grid

Movement in the grid

Finding open spaces players can only take three steps with the ball and must throw the ball to progress.

Cannot run the ball outside of the grid must be played with a pass

TACTICAL PRINCIPLES

Team Tactics:

Movement off the ball

Runs in behind

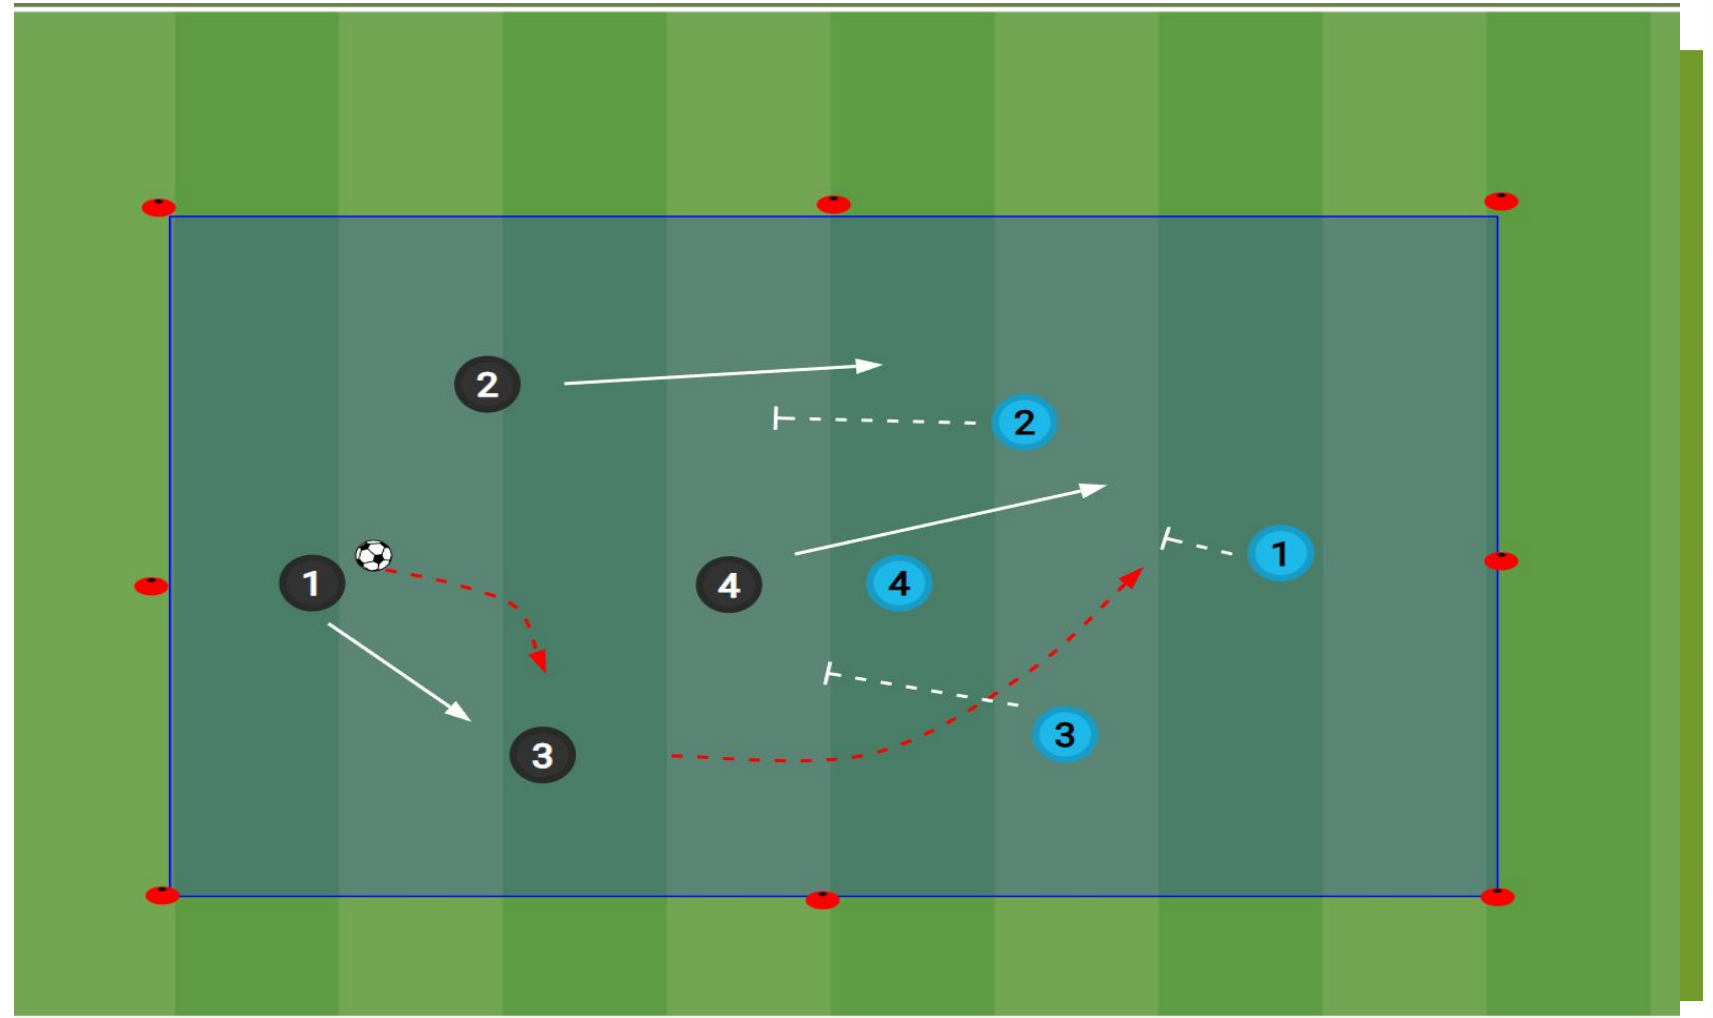

Movement with the ball

Individual tactics:

Movement between channels

Scanning space

Showing between defenders

COACHING DETAILS

HOW: Drag defenders in to create space behind

WHEN: when tightly marked to create space

WHY: In order to create space behind for players to occupy

WHERE: Between channels 3 and 2

WHAT: Having players rotating and communicating and calling for ball

WHY: We have to lost or defender and make it hard to be marked.

ORGANIZATION

4+1 v 4+1

Each team has a bouncer they are trying to score in either one of the small nets.

The bouncer can move answer along teh back line.

They can use the bouncer to score or use him a diversion to find one of the two small goals.

Players are encouraged to use th bouncer for an extra two points.

Progression They can switch bouncers or adding more bouncers on each side

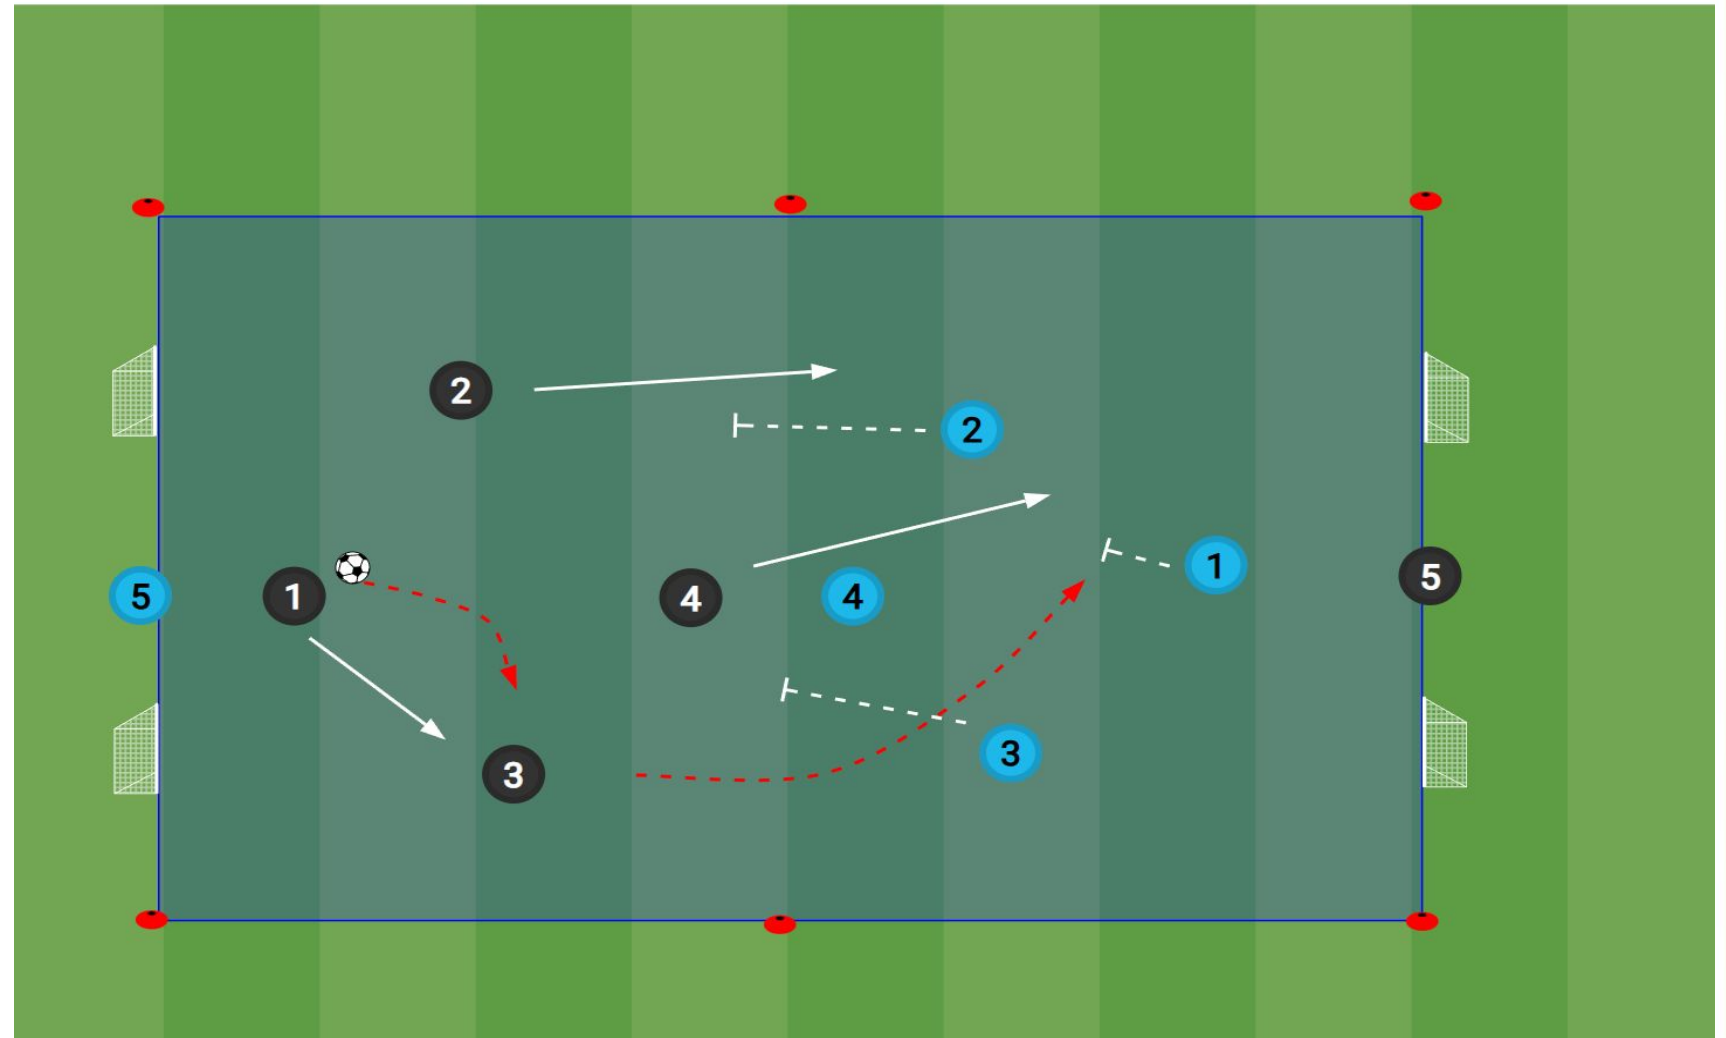

TACTICAL PRINCIPLES

Team Tactics:

- Movement off the ball
- Runs in behind
- Movement with the ball

Individual tactics:

- Movement between channels
- Scanning space
- Showing between defenders

COACHING DETAILS

HOW: Drag defenders in to create space behind

WHEN: when tightly marked to create space

WHY: In order to create space behind for players to occupy

WHERE: Between channels 3 and 2

WHAT: Having players rotating and communicating and calling for ball

WHY: We have to lost or defender and make it hard to be marked.

ORGANIZATION

6v7 (1-2-1-2-1 vs 0-2-1-2-1)

Black Structure: CDM Central & Low

Strategy:

Black: Looking to build either wide or through the central channel., Draw in tier 5 & 6 then look to build with either your 6 & 7.

Blue: be compact when defending, use 7, 6 & 5 to prevent them from finding their 5,6 & 7. Then use 3 & 2 as support if they break the line.

All play start from the goalkeeper.

Progression/Regression

Look to have the 4 show and either play a bounce pass our turn into space. Try and get the goalkeeper involved as a back 3 if needed.

TACTICAL PRINCIPLES

Tactical principle:

Calm under pressure

Patient in possession

Allow them to force players forward then attack gaps.

Use the keeper when under pressure.

Skip zone 2 when accessible.

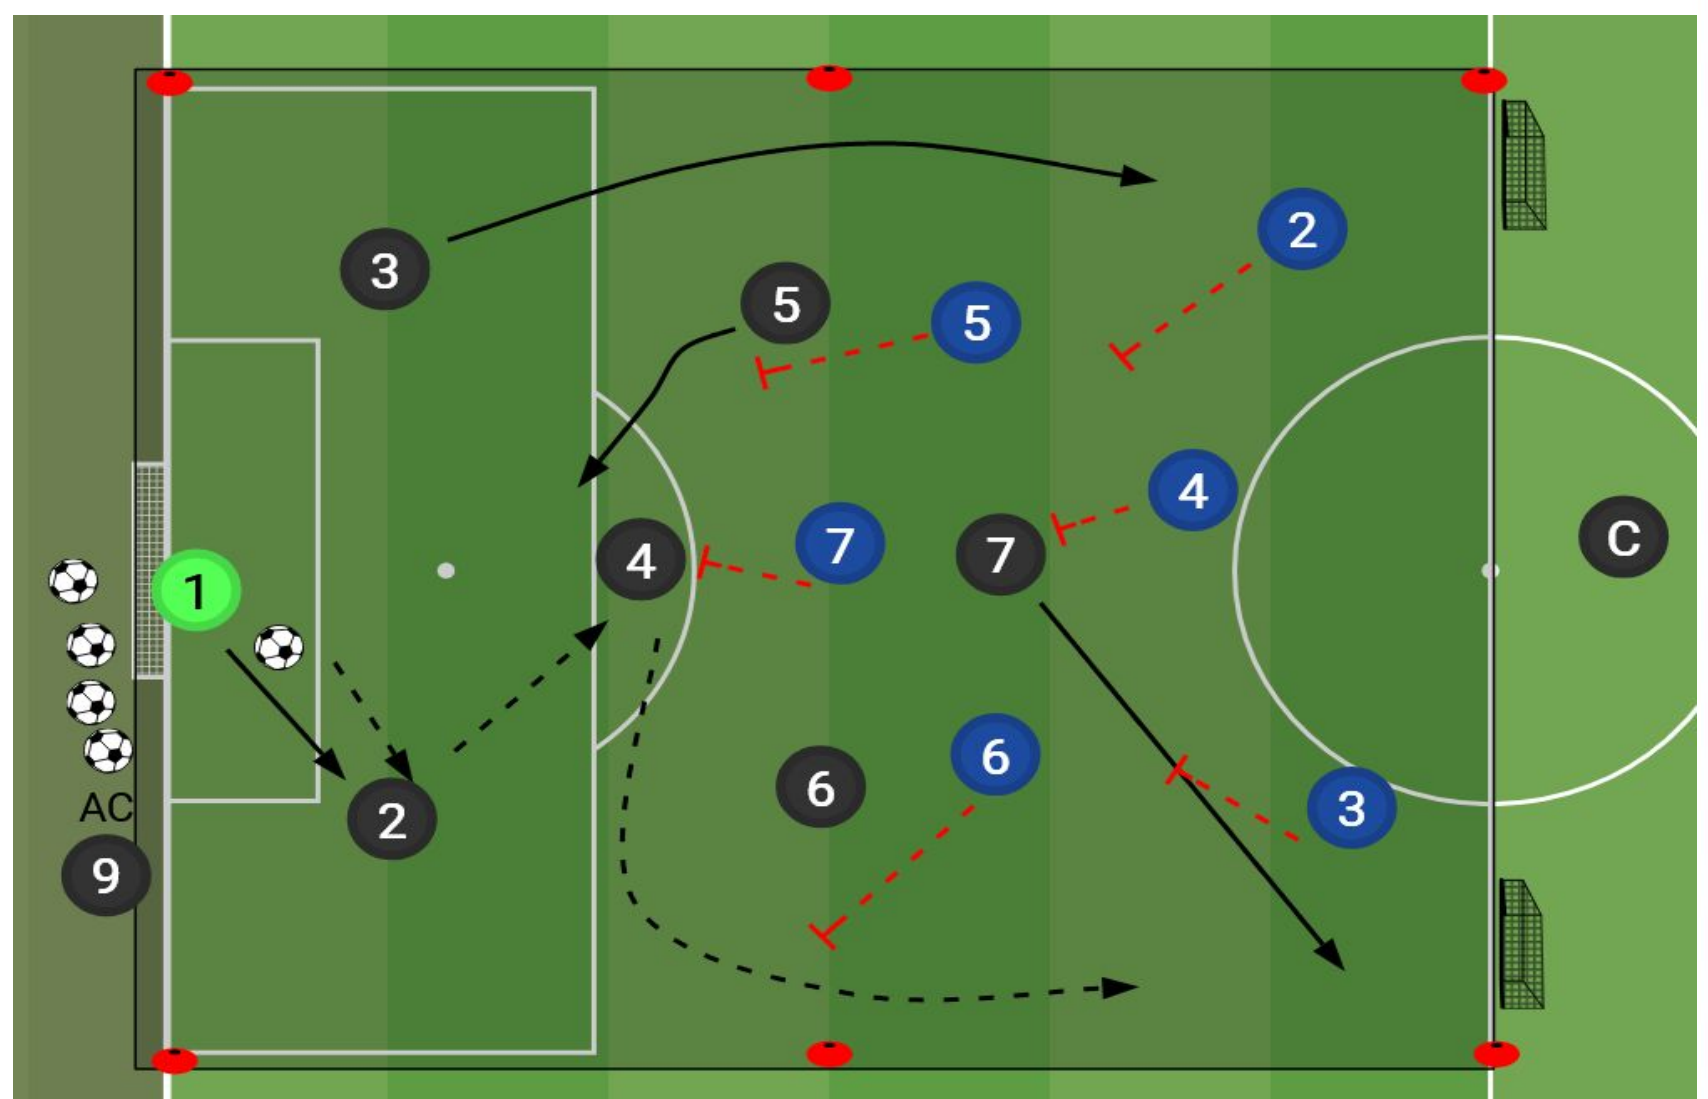

Skill Set:

Look forward play forward

Breaking lines

Avoid overloading central channel

Look central to play wide

COACHING DETAILS

WHAT: Building from the back

WHO-WHERE-WHEN: When the 7,6,5 commit and look to press switch channels, progress through gaps.

WHEN: Look for the gaps in between

WHY: if we look to play too fast we will struggle to get forward.

HOW: We must occupy different channels on the pitch

HOW: Each player in zones 1 and 2 should occupy a different channel 2 and 3 should occupy separate channels 5 & 6 should occupy central channel.

WHEN: 7 should occupy the channel where the ball is being played

ORGANIZATION

9v9 (1-2-3-2-1 vs 1-2-2-1-2-1)

RED STRUCTURE: WB wide and touch line

STRATEGY:

RED: Is looking to use there wide players to help them get forward. They don't have to use the wide players but is encouraged.

WHITE: Similar objective to use their wide players to assist getting forward and prevent the red team from playing down the middle fo the pitch.

Play starts from red goalkeepers

Progression/Regression

Touch limit if play is too slow and stagnant, remove zone and allow players ti switch the wide player

TACTICAL PRINCIPLES

TACTICAL PRINCIPLE:

Use the wide players t assist forward play
6 is the pivot wide players combine with 10 & 3
to be there sole defender or 1v1 in the wide channel.

Use keeper when needed to build attack

SKILL SETS:

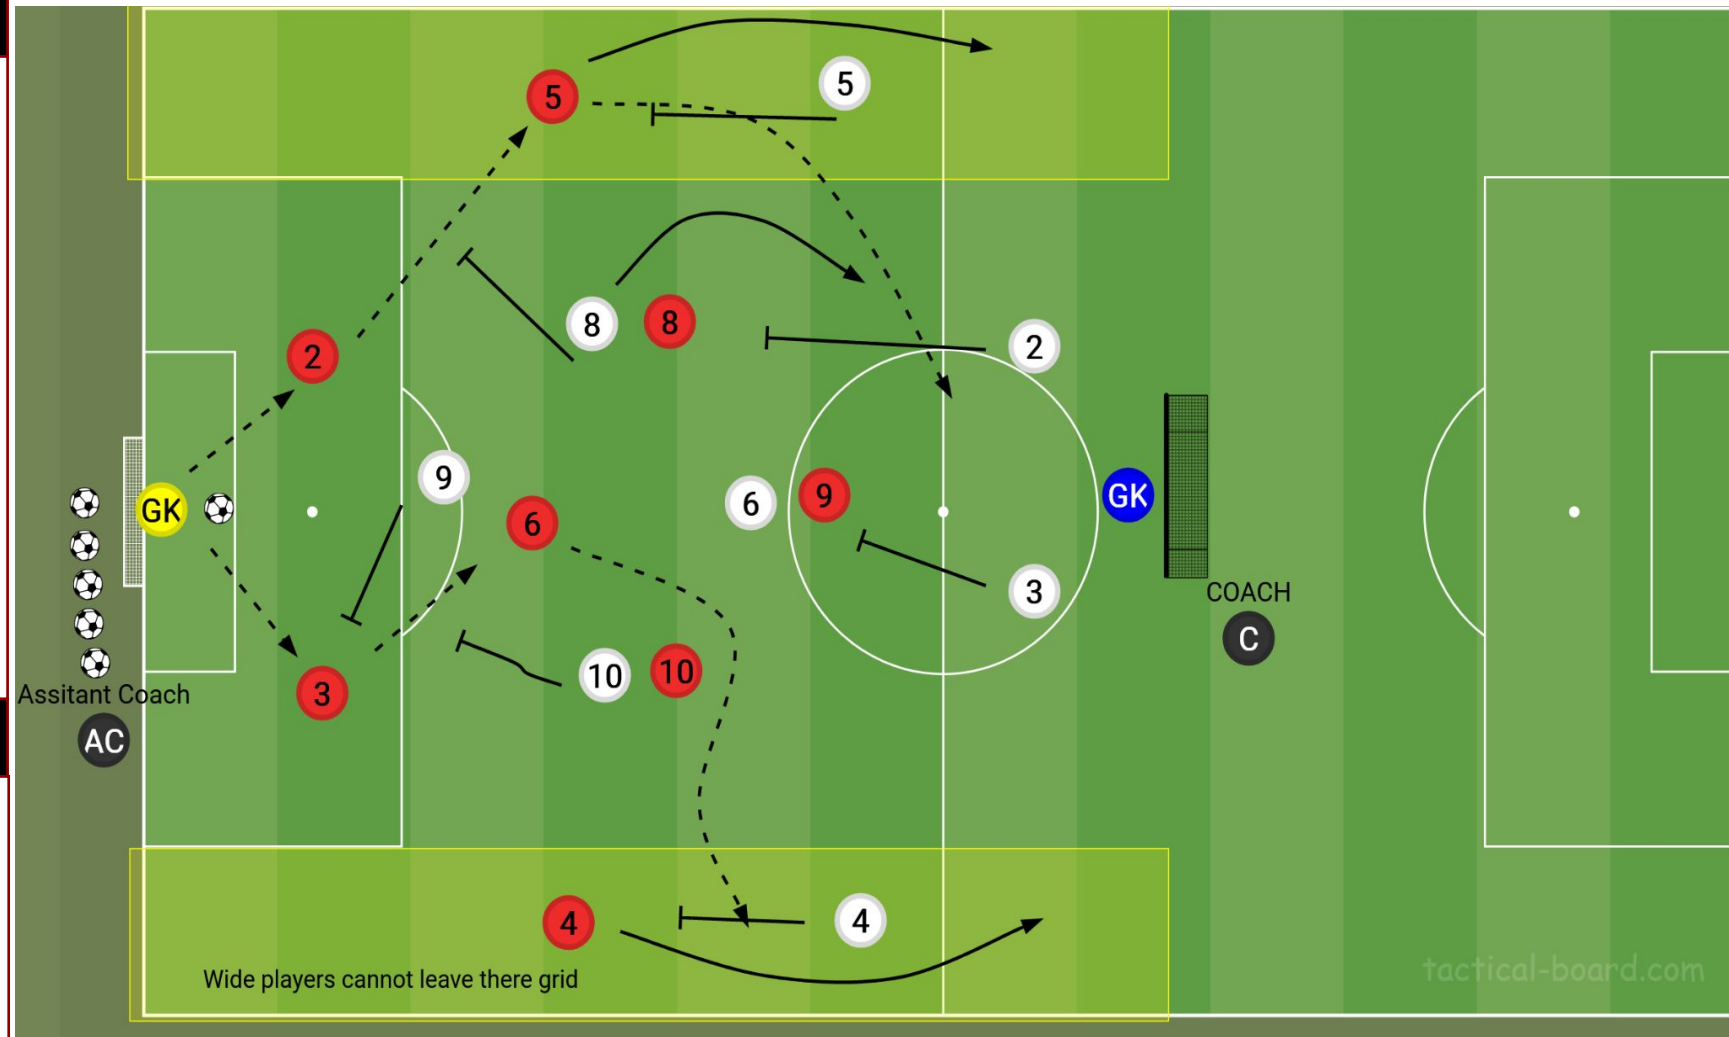

Patient in build up

Use keeper for build up

Support wide players in the wide channels and build with them to build.

1v1 in wide channel

Can wide player beat player and get ball into box

COACHING DETAILS

WHO: 1v1 players in the wide channel 4 and 5 when isolated with there defender can they beat them and get ball into box.
WHY: work on 1v1 situation and what to do in wide channels when we have won the ball

HOW: Use our goalkeeper to help us build, suck in 9 then switch channel and look to get forward.
WHEN: When the 9 press our CB's we switch the play and use our other center back to attack space.

WHERE: Transitioning from zones 4 to 3 and progressing into zone 2. From channels 3 out to channels 2 and 1 to progress up the field.
WHO: #4 #5 will be able to progress on the wings
