

System

AO: 1-4-2-3-1
DO: 1-4-3-3

Strategy

WHAT: The plan is to disperse and attack the team from wide channels look to transition and ball and progress down the flanks with our 3.2 and 6,8

Tactics

Unbalance the opponent
Transition within the pitch
Communicate advancement

Skill Set

Look to play the ball fast when in possession
Be patient and pick moments to attack
Breaking lines when opponent leaves gaps
Use transition moments to get forward

Attacking Organization

ZONES 3-2 into 1 - Channel 3-2 (Left Channel - Right Channel)

Groups
7,9,11

PLAYERS

Ability of player from Low Level Intermediate to Medium Level Intermediate

15-16 players

U14 age group

Primary Players: #7 #9 #11 #10 #8

Secondary Players: #6 #4 #5

RESOURCES

90 Minutes (Full-Field)

Assistant Coach to manage the defending side

Balls

Two colour set of pinnies

Cones

Two Small nets

Coaching Board

Assistant coach to help lead and organize the defending team

OBJECTIVE & LEARNING INTENTIONS

Looking to build from wide channels with combination play

Avoid playing the ball down the middle of the field

- Overload wide angles
- Crash channel 3 in zone 4

Players should be able to have a better understanding of when we want to build from the wide channel.

They should have a better understanding of what an unbalance looks like and see our moments when we can progress with speed and precision.

TACTICAL PRINCIPLES / SKILL SETS

Our approach focuses on building through the wide areas, using overlaps and forward runs to progress play while avoiding the central channel. Players should stay calm in possession, look to break lines, and consistently use channel 1 to move forward. Key skills include effective wide combining, overlapping support, and smart positioning to occupy and exploit channel-1 spaces.

NOTES:

ORGANIZATION

Start with the ball being played into the number 10 the players are trying to build the ball out from the back and find a player either the 11 or 9 making a run in behind the 3.

If the defending players win the ball they can finish on the big goal which is uncontested meaning no goalie

DO: 1-2-1

AO: 1-2

40x35

Primary: #9 #11 #7 #10

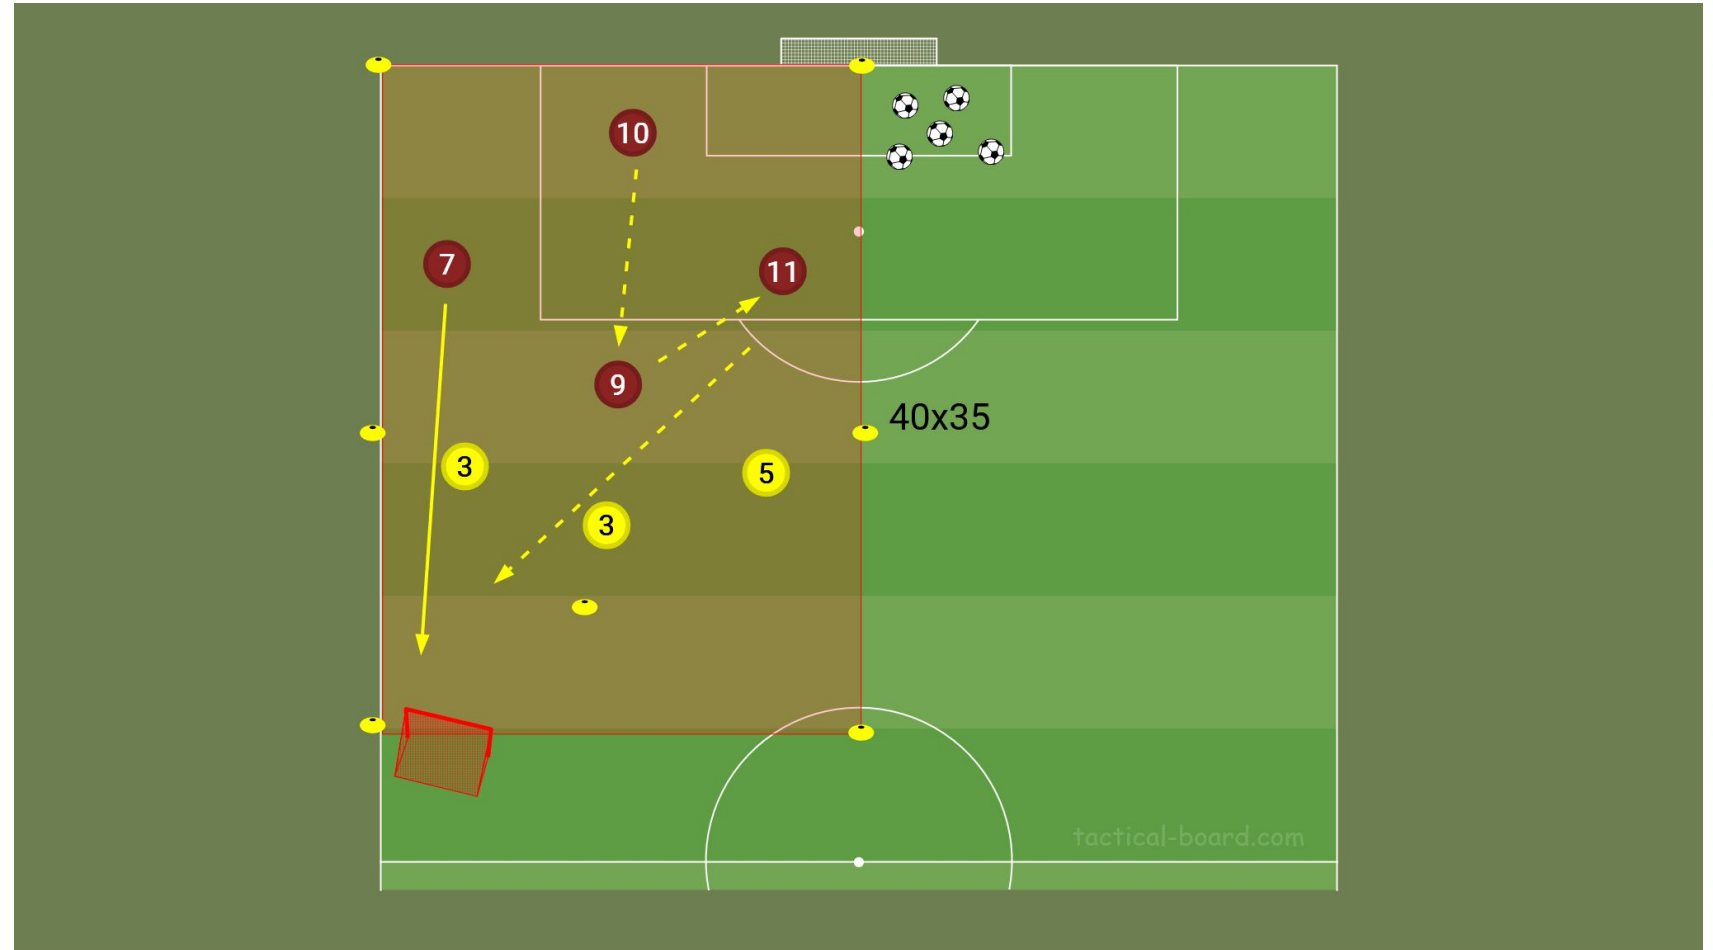

Secondary: #4, #5, #3

TACTICAL PRINCIPLES

Unbalance the opponent

Transition within the pitch

Communicate advancement

COACHING DETAILS

HOW: Be patient and look forward
WHO: Use 10 as a safety

WHEN: If we cannot go forward reset the ball
WHEN: Switch the ball to cause unbalance

HOW: Quick attacking Possession
WHY: Defend and can we counter
WHAT: How fast can we find the wide channel

ORGANIZATION

Three small sided Games where they players are trying to combine to find the wide player to get past the defending team

If the defending team score they have a counter attack to try and score on the large goal

Attacking players are trying to avoid the defending team from getting out of the grid so they can maintain possession and score on the small nets. Either the ball goes out of play or a team scores and then the next team plays.

TACTICAL PRINCIPLES

Find the wide player

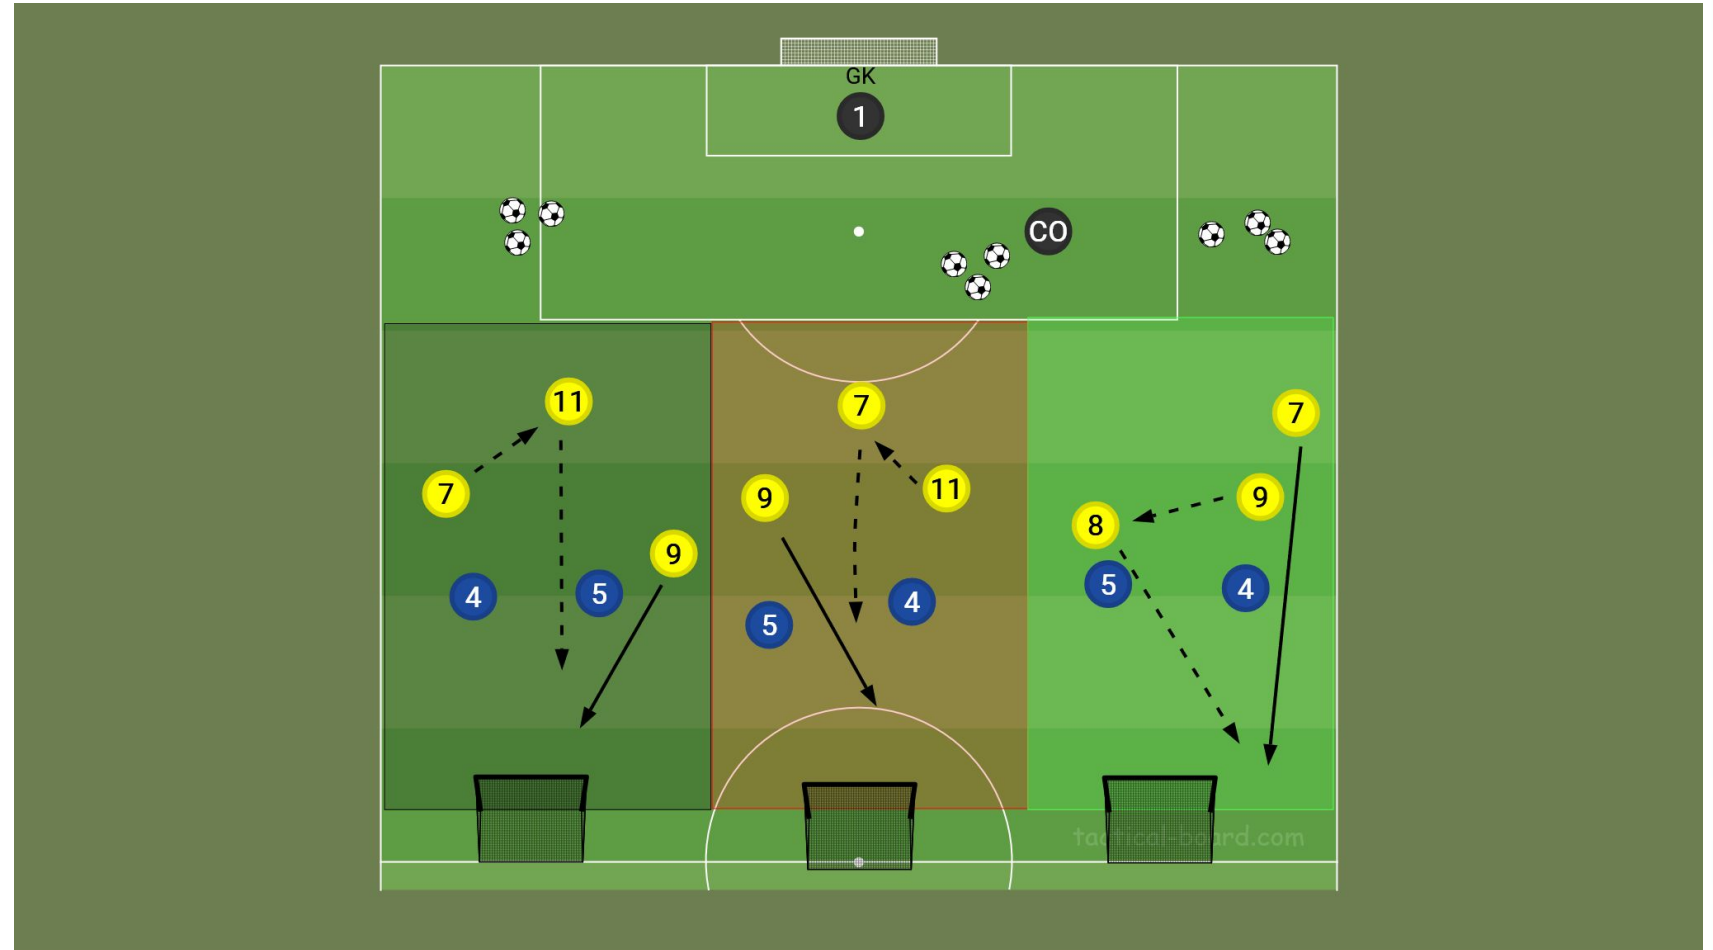

Look forward

Break lines

Try got make runs in behind

Counter press if we lose ball

Avoid defending team from get shot on goal

COACHING DETAILS

Defend when we lose the ball
Avoid team from scoring
How fast can we apply pressure

Can we beat them in 3 simple passes

Make a run in behind

Drag a player out of possession to find space in behind

Can we create space for our teammates

Turn in the half space and get past the defender

Spread the pitch as much as possible

ORGANIZATION

Reds: 1-3-3 (#5, #6, #8, #10, #11, #9, #7)

Greens: 1-3-3 (#3, #5, #4, #2, #6, #8)

The red team is looking to build front the wide channels. Channel three they are looking to find the wide players.

The reds can only score when a ball is played to either the #11 or #10 and they in turn must cross a ball into the box.

The greens must look to defend the central and wide channels and if they win the ball they are able to score on either one of the small nets.

TACTICAL PRINCIPLES

Team Tactical Principles:

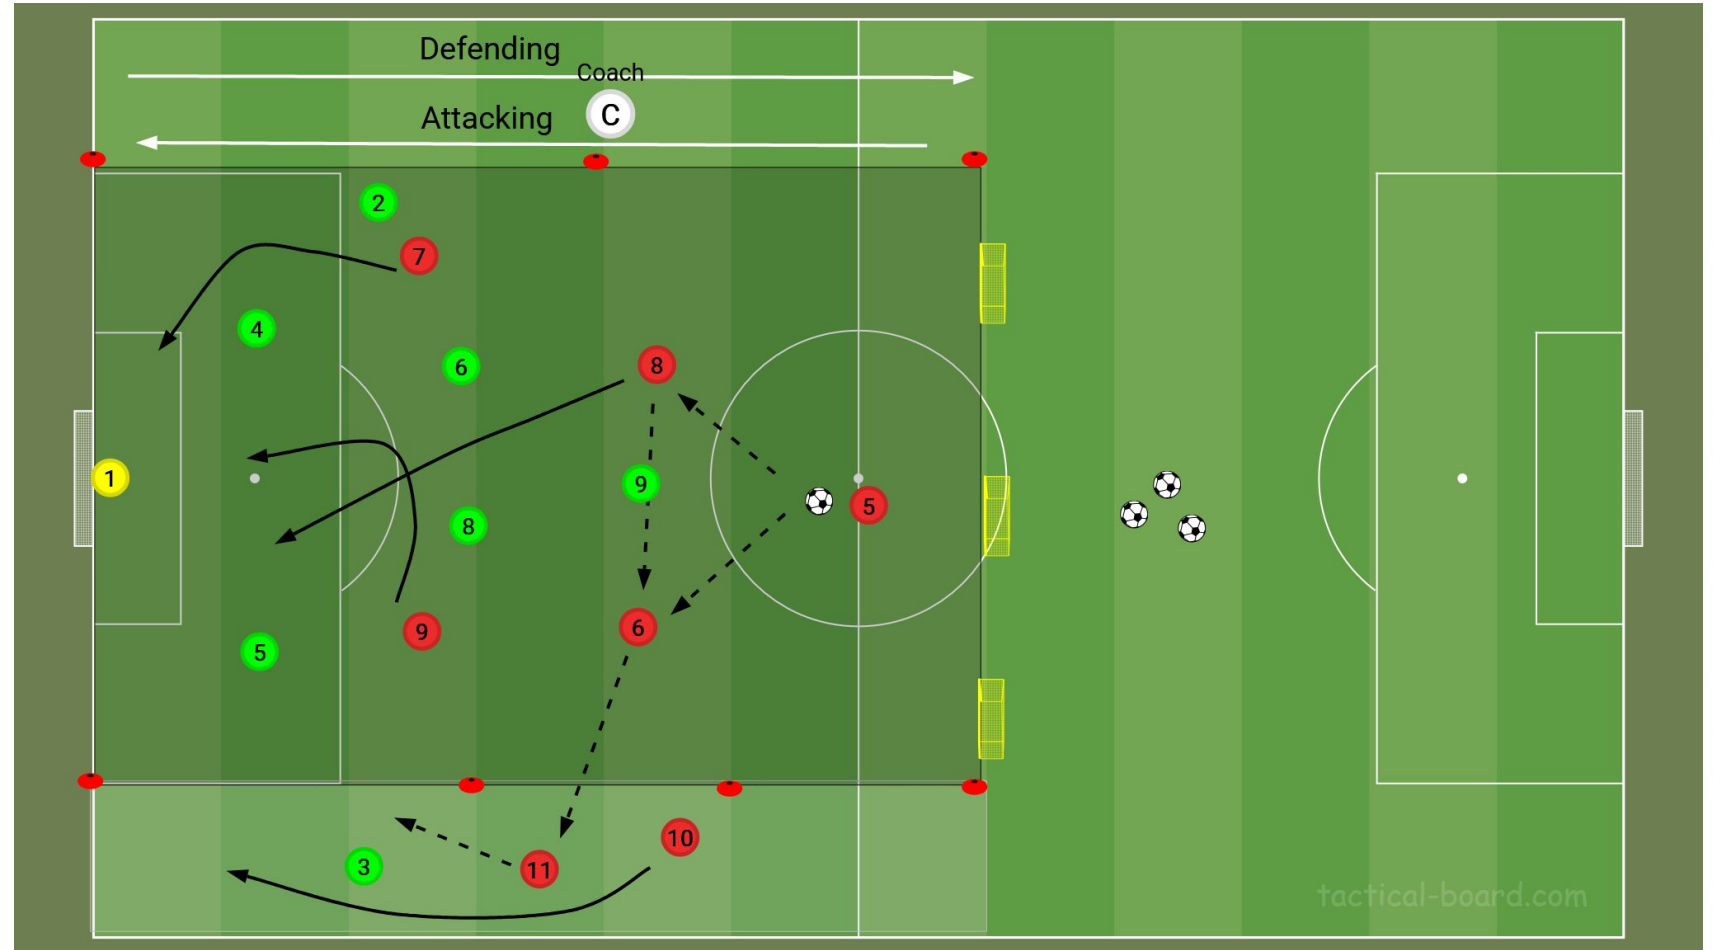

Looking to use the wide channels to build from
Avoid the defending team from playing out

Individual Tactical Principle:

Look wide
Shuffle the ball
Attack the box

Skill Sets:

Runs into the box
Breaking lines
Avoid central build

COACHING DETAILS

Build wide and avoid using central channel

Be patient in possession
Look for moments when the defense creates space

Look to make the pitch wide on the central channel use the man advantage to build

ORGANIZATION

Size $\frac{3}{4}$ pitch zones 3-2-1

9v8

Strategy build in the wide channels

Use central channel to switch the ball

Use the wide channel to force an overload

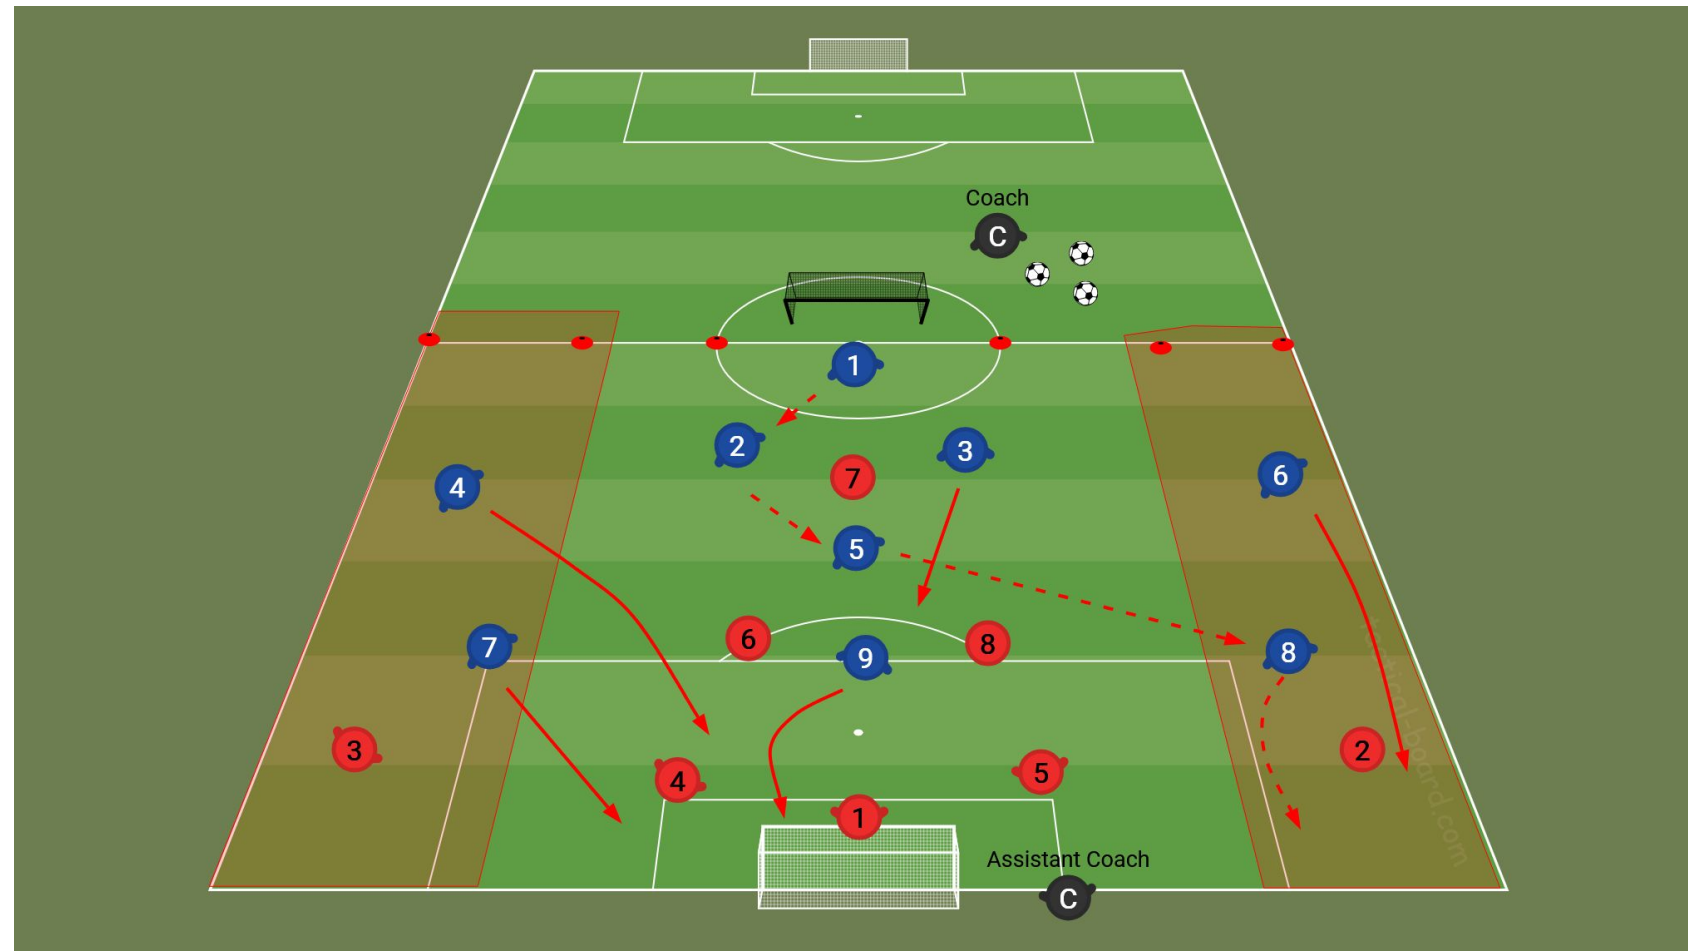

TACTICAL PRINCIPLES

Team Tactical
Build Wide
Central switching

Individual Tactical:
Avoid Central Build

Skill Sets:

Body positioning
Moments of build

COACHING DETAILS

Avoid central build
#2 and #3 dictate the side we want to build from

Isolate in wide channels 2 v1 situation

Balls start from the coach playing to the keeper
